## PROFESSIONAL SUMMARY

Senior Full Stack Engineer with 4+ years of experience specializing in high-performance Microservices and modern Web Architectures. Expert in building scalable marketplace-ready solutions using .NET 8, ASP.NET Core Web API, and modern frontend frameworks including Angular, React, and Next.js. Proven ability to optimize system throughput by 300% and lead the development of complex multi-tenant enterprise platforms.

## TECHNICAL CORE COMPETENCIES

**Backend:** .NET 8/Core, C#, ASP.NET Web API, Microservices, Clean Architecture, SignalR, gRPC, DDD, Entity Framework, LINQ.

**Frontend:** Angular, React.js, Next.js, Redux, TypeScript, Tailwind CSS, Responsive Web Design.

**Databases:** SQL Server (Advanced Tuning), PostgreSQL, Redis, MongoDB, SSRS.

**DevOps & CI/CD:** Azure DevOps, Docker, Kubernetes, TFS, Git, CI/CD Pipelines.

**Security & QA:** OAuth 2.0, JWT, RBAC, TDD, Playwright, Cypress.

## PROFESSIONAL EXPERIENCE

### Senior Software Developer

WE3DS COMPANY

Jul 2024 – Present

Tanta, Egypt

- Architected and implemented scalable .NET 8 Microservices using Clean Architecture and Domain-Driven Design (DDD) to support enterprise marketplace workflows.
- Led the transition to multi-tenant architectures, ensuring secure data isolation and hierarchical role-based access control (RBAC).
- Engineered high-throughput integration layers and real-time telemetry backends using SignalR, managing over 1000+ IoT endpoints.
- Automated CI/CD pipelines using Azure DevOps and TFS, significantly reducing deployment cycles and ensuring configuration baseline integrity.
- Optimized database performance by 300% through strategic SQL query tuning, indexing, and Redis distributed caching.

### Full Stack Developer (Freelance)

Self-Employed

Nov 2023 – Jul 2024

Cairo, Egypt

- Developed end-to-end web applications using Next.js and React for dynamic, SEO-friendly marketplace frontends and .NET Core for robust API backends.
- Integrated complex third-party REST APIs (Payments, Auth, Mapping) to extend platform capabilities.
- Containerized legacy services using Docker to streamline development environments and cloud migration.

## SELECTED PROJECTS

**E-Commerce Marketplace Engine:** Built a modular marketplace backend using .NET 8 Microservices, implementing a Repository Pattern and Unit of Work for high maintainability.

**Real-Time Logistics & IoT Dashboard:** Developed a full-stack dashboard (Angular & .NET) featuring real-time data visualization via SignalR for logistics tracking.

**Multi-Tenant CRM/ERP Sync:** Engineered a synchronization layer for CRM and ERP systems, handling large-scale data transfers with high consistency.

**Next.js Portfolio & PWA:** Developed a high-performance personal portfolio using Next.js and Tailwind CSS, showcasing optimized web vitals and mobile responsiveness.

EDUCATION & CREDENTIALS

---

B.Sc. in Computer Science

2021

Higher Technological Institute (HTI), Egypt

**Certifications:** Microsoft Certified: Azure Fundamentals (AZ-900)

**Languages:** English (Professional Fluency), Arabic (Native)
